

## ELOGIC INTELLIGENT DC-DC BATTERY CHARGER

### FEATURES

- Vehicle EURO 5/6 Norm charger
- Correct charging secondary battery
- Protects alternator when charging lithium batteries
- Variable speed fan for low noise operation
- Simple intuitive LED indicators show the charger's status
- Fully programmable through Samlex QuickLink interface
- Remote on/off input (engine run)
- BMS control input
- Open collector status output
- Protected against high temperature, short circuit, high/low input voltage and reverse polarity
- Very easy installation
- Temperature sensor included
- CE certified
- 24 month warranty

**50 AMPS**

### APPLICATIONS

- Standard and EURO5/6 Norm. Vehicles

### TECHNICAL SPECIFICATIONS

| Model                                 | <b>EL 12-12/50</b>   |
|---------------------------------------|--|
| Nominal input voltage                 | 12Vdc  |
| Input voltage range                   | 10.0 – 16.0Vdc   |
| Maximum input current                 | 65Adc  |
| Current consumption (inactive)        | < 0.25mA   |
| Current consumption (noload/standby)  | < 35mA   |
| Nominal output voltage                | 12Vdc  |
| Output voltage range                  | 12.0 – 16.0Vdc   |
| Maximum output current <sup>1)</sup>  | 50A  |
| Charge characteristic                 | IUoUo, intelligent 3-stage, temp. Compensated  |
| Supported battery types <sup>2)</sup> | Flooded / Gel / AGM / LiFePO4  |
| Operating temperature range           | -20°C ... +60°C  |
| Storage temperature range             | -30°C ... +70°C  |
| Cooling                               | Variable speed fan   |
| Communication port                    | Samlex QuickLink   |
| Temperature sensor port               | Yes (sensor included)  |
| Engine run / activate input port      | Yes (> 2.0Vdc = Active and < 1.0Vdc = Inactive)  |
| BMS input port                        | Yes (> 3.0Vdc = Standby and < 1.0Vdc = Active)   |
| Status output port                    | Yes (open drain, 32Vdc / 150mA max, five assignable status types)  |
| Protections                           | High/low input voltage, high temperature, output short circuit and reverse battery polarity (input + output) |

*Note : the given specifications are subject to change without notice.*

## TECHNICAL SPECIFICATIONS

|  |  |
|--|--|
| Indications  | Input status, output (charge-) status, error   |
| External Input Side<br>(Inline with "Input+" Terminal)   | Fuse 70 - 90 A   |
| External Output Side<br>(Inline with "Output+" Terminal) | Fuse 60 - 80 A   |
| Battery connections                                      | 3x M6 screw terminal   |
| Enclosure body size (HxDxW)                              | 70 x 128 x 170mm   |
| Total weight   | 1.2kg  |
| Protection class   | IP21   |
| Standards  | EMC: 2014/30/EU, Low voltage directive: 2014/35/EU,<br>RoHS: 2011/65/EU, Automotive: EN50498 („E“ pending) |

<sup>1)</sup> Maximum output current tolerance is +/-10%. Automatic output current derating at Temperature ambient > 40°C.  
Value is programmable.

<sup>2)</sup> Selectable by DIP switch. All standard charge voltages can also be modified by the Samlex Dashboard application.

*Note : the given specifications are subject to change without notice.*
